

SBS 355 is shown

SBS 355

- Rigid vise with lateral slide, long stroke and long guideways in the movable jaw segments
- Hydraulic quick-action clamping fixture with proven performance in series production ensures constant tension to the last cut
- Infinitely variable saw blade speed for optimum machining of a wide range of materials and profiles
- Easy handling - at the end of the cut, the integrated hydraulics lift the saw frame to the home position

SBS 255

- The SBS 255 features a round setup table, which pivots in synchrony with the saw frame
- Mechanical quick-action clamping allows for quick release and fixation of workpieces via hand-lever; ideal for small batches
